

“It saves gas and wear and tear on my car.”

I began working at Ochoa Foods, Warden, in February, 2007 and have ridden the GTA bus 90% of the time I have worked there. I catch the bus at about 5:55AM at the fire station on the base in Moses Lake, to get to work in Warden by 6:45 AM and ride it back home almost every day. I didn't always have a car or a driver's license so without the GTA bus I wouldn't been able to keep my job. I have a car now, but ride the bus most of the time anyway because it saves gas and wear and tear on my car.
